WE HAVE THEM! HYPO-ALLERGENIC
This word—which you may never have heard of nor seen—can be the KEY to your whole problem of SAFE beauty care for sensitive skin

It's a long word, with a formidable scientific sound (Hypo-al-ur-jen-ic). But you will soon hear it pronounced by women you know. You will hear it mentioned with a sense of excitement—a feeling of deliverance from a beauty problem. . . a tragic problem for many women. For millions of women—at least one in six—suffer allergy reactions to conventional cosmetics. Hypo-allergenic Cosmetics are those cosmetics which are formulated for the express purpose of reducing allergic reactions and irritations to a minimum by using ingredients which have a low index of sensitivity. Under the brand name, AR-EX, these cosmetics are available in scented and unscented form in our cosmetic department.

SYMPTOMS OF COSMETIC ALLERGY
Nasal Irritation with hay fever symptoms may be caused by conventional cosmetics or their perfume ingredients.
Chopped Honds may be caused by the use of conventional soaps, lotions or detergents.
Cracked Swollen Lips can be caused by a lipstick, especially one containing indelible dye.

Body Rashes may be traceable to allergy-causing substances in lotions, creams, soaps, body powder, nail polish or deodorant.
Other members of the family, (even pets!) may suffer from allergy to a woman's cosmetics. A change to AR-EX Hypo-Allergenic Cosmetics will help them.
